[Descriptions for a few of Nick Botner's Apples](#)

We have been trying to track down history/descriptions for a few apple varieties we obtained through scionwood from Nick Botner years ago. Our trees have a ways to go before fruiting and we cannot find any descriptions of the varieties in question, and haven't received any response from Almaty Farm (Temperate Orchard Conservancy), which took over Nick's repository, to our query. Just wondering if anyone else out there is growing 'Appomattox Golden Sweet,' 'Loyalist,' or 'Christmas Delight' and can provide any information about them.

Thanks
