Our goal at The Great Canadian Cider Company is to create and distribute the best organic ciders in Canada using locally grown organic apples.

Our flagship Nice & Dry Cider was the first organic cider available commercially in Ontario and we want to continue growing locally by supporting our organic growers.

At Great Cider we use three simple ingredients: Organic Apples, Organic Cane Sugar and Time. Lots of time.

If you are interested in working with us and selling us your organic apples, please email steve@greatcider.com.

If you would like to know more about us, you can visit our website at www.greatcider.com

Here is a recent article on what we are doing; [foodism.to]

Steve, in that article I can read:

Quote

The partners behind The Great Canadian Cider Company had been making an organic ice cider in Quebec for five years before learning there was nothing comparable in Ontario.

May I ask which is this Quebec cider?

And are you working with organically grown standard dessert varieties, or with cider varieties (or a blend of both types)?

Claude
